Internships

Vinod Kamat

Internships

- Why is internship important ?
 - Gives you an industry level-perspective
 - Learning opportunity
 - Networking
 - To get work you need experience and to get experience you need work :)
- When to do an internship ?
 - Should you do an internship in FE itself? If so which internships can you think of pursuing?
 - What are winter internships and summer internships? (at IITs and IIMs)
- How to secure an internship?
 - Platforms (Internshala, Letsintern, LinkedIn jobs/ posts)
 - Use your network
 - Don't shy away from asking!
 - Career Portals
 - Cold Emailing (You never know what might work!)

Internships

- Prerequisites
 - Resume (1 page), Cover Letter (might or might not be required)
 - A project would be great if you are applying to a technical internship
 - Show your work, A code in your PC has no value unless it's being presented to world (use Github)
 - Participating in competitions, any relevant awards, certifications.
- Why not to do an internship?
 - Don't do it just for the resume or stipend.
 - Avoid internships such as College Ambassador, Social Media Marketing
- My Experience
 - Android Development Intern
 - Data Science Intern
 - Product Management Intern
 - And others...
